Also Needed:

- Eyelet Setter (or replace snaps with brads)

The Ash cardstock is the base for the left side of the layout. The Safari Green cardstock is the base for the right side. These pieces of card do not need to be cut.

Cut an 8” strip off the Stripe paper, you want the stripes horizontally, and the black pattern on the left hand side.

Measure the 8” from this left hand side. Cut this 8” strip in half. Glue the left half to the right side of the Ash cardstock.

Look at the Flower paper. Decide which way round you want to use it. You need to cut another 8” strip. Glue the 8” strip to the left side of the Ash cardstock. Glue the 4” strip of flower cardstock to the bottom of the Safari Green cardstock.

Glue a strip of the ribbon across the top of the flower cardstock on the green cardstock. You don’t need to take the ribbon all the way across as the 4” on the left is covered by the stripe cardstock. You will need about 8 1/2 “.

Cut mats for your photos from the Black cardstock. One mat wants to be wider on the right hand side, and the other wider at the bottom. Mat your photos on these pieces of cardstock.

Glue a length of the ribbon to the mat on the right hand side.

Cut three tags from the Sand cardstock. I used a tag punch, you can also use a die cut, or cut them by hand. Write words on the tags. I wrote “strength”, “pride” and “love” as these are all attributes that I admire in my DH. If you don’t like your handwriting you can use any other method, such as rubber stamps, a dymo machine, rub-ons, or use your computer. Attach the tags to the bottom of the other photo mat using the brads.

Glue the photos to the cardstock as in the picture.

Cut a 4x1” and a 5x1” strip from the sand

cardstock. Punch two holes in the left side of the 4x1" strip.

Put "Things I" on the 4x1" strip using the rub-ons.

Cut the remaining ribbon in half and tie a piece through each hole in the sand cardstock.

Put a rub-on "e" onto the bottlecap.

Leave enough space for the bottlecap, and put "nvy" onto the 5x1" strip. Use a Dymo machine, or a similar font such as Blackout to put "about", and finish with "you" rub-ons. I used a black fountain pen to put the dots at the end. Glue the strips and bottlecap to the flower paper at the bottom of the right hand side.

Cut a 9"x3 1/2" piece of Sand cardstock. Score and fold as follows: make a fold 1 1/4" down from the top. Fold the remaining in half, folding the bottom up.. You should end up with a small booklet. Use the remaining brad to attach the photo anchor just underneath where the top folds down. The photo anchor holds the booklet closed.

Write your journaling inside the booklet, and glue the booklet to the left hand side.

Use the Dymo machine or font to create a title for your journaling, I used "From me to you". Add the date to the bottom.

Done!
